

Protect your mission-critical data

Through capabilities like data security, backup and recovery, sandbox seeding, and archiving, OwnBackup empowers you to proactively manage and protect the data that drives your business.

Protect your Salesforce, Microsoft, and ServiceNow instances

- Powered and technically validated by AWS, OwnBackup is a market-leading data protection and security platform for SaaS applications.
- Export to Amazon S3 functionality complements AWS services including QuickSight, KMS, Athena, and others.
- Procure OwnBackup in AWS Marketplace. Receive additional benefits from AWS at no additional cost.

Built for the enterprise, OwnBackup closes resiliency gaps while providing data visibility, compliance, and governance for supported ecosystems.

Data Security

Strengthen security posture by identifying data exposure risks and proactively taking action.

- Reduce security risk and data breaches
- Protect highly sensitive data
- Identify new risks as they emerge

Data Archiving

Preserve data with customizable retention policies and simplified compliance.

- Save on storage costs
- Improve org speed and performance
- Avoid fines by securely archiving sensitive legacy data

Backup & Recovery

Protect data and metadata with comprehensive, automated backups and rapid, stress-free recovery.

- Ensure business continuity and data health
- Restore only what's needed, quickly
- Protect your backups from malicious attacks

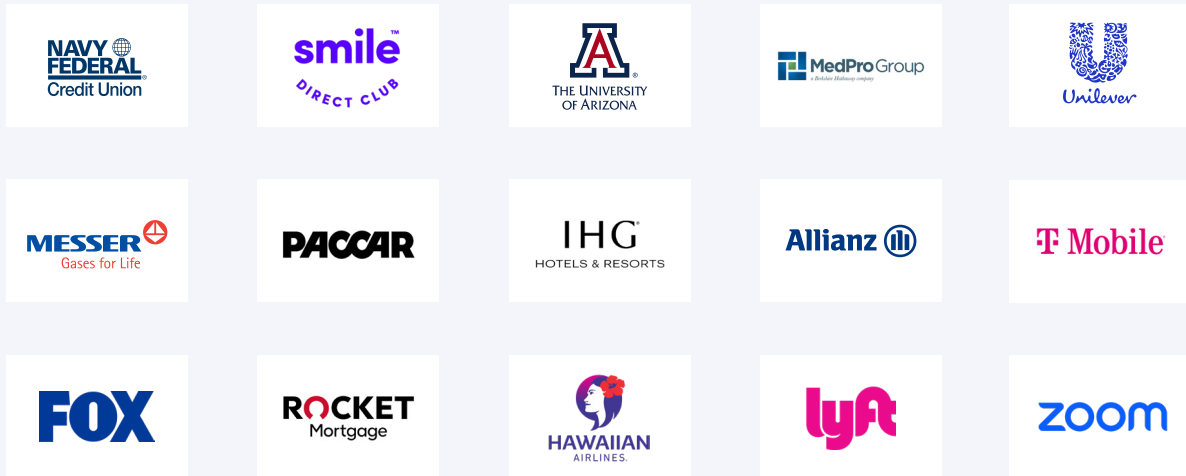

Sandbox Seeding

Propagate data to sandboxes for faster innovation and ideal training environments.

- Innovate faster by seeding from templates
- Reduce costly re-work
- Don't expose sensitive data in sandboxes

You're in great company

Join over 5,000 customers globally who are managing and protecting their data with OwnBackup.

OwnBackup on AWS Marketplace

Customers can purchase OwnBackup software and services on AWS Marketplace, either directly from OwnBackup, through a Private Offer, or through their preferred Consulting Partner via a Consulting Partner Private Offer.

Benefits of this procurement path

Decrease AWS spend commitments

Retire up to 100% of your OwnBackup invoice amount towards your spend commitments with AWS.

Simplify purchasing experience

At no additional cost, add OwnBackup to your AWS invoice and receive your Order Form via a Private Offer.

Streamline procurement

Leverage OwnBackup's Standard Contract for AWS Marketplace that has been pre-negotiated and developed by AWS.
